SUMMARY

I am a goal-oriented IT professional with nearly 5 years of experience as a Frontend Developer. My expertise lies in developing User Interface Web Applications and providing technical solutions in various projects. I am skilled in modern technologies including JavaScript, Angular, Vue JS and Bootstrap, and I thrive on enhancing user experiences through my work.

EXPERIENCE

Frontend Developer

Tata Consultancy Services

10/2022 - Present Hyderabad, India

The **Bank of America** online banking portal provides secure, convenient access to financial accounts and services.

- Analyzed business requirements and contributed to the technical design, development, and testing of assigned modules.
- Modernized legacy systems by building new components using JavaScript, Vue.js, Vuex, and SASS.
- Developed responsive user interfaces (UI) using Sparta, an internal framework built with modern web technologies.
- Managed localization of static data with JSON files to support both English and Spanish languages.
- Designed and implemented responsive components for an online banking application.
- Utilized media queries to address device-specific CSS challenges and ensure a consistent user experience across various screen sizes.
- Ensured cross-browser compatibility by troubleshooting and resolving issues across Firefox, Safari, Opera, and Chrome.
- Leveraged Local Storage and Session Storage to enhance client-side data management during page transitions.
- Utilized Git for version control and JIRA to track and manage bugs, improving team collaboration and reducing downtime.

Frontend Developer

Cognizant Technology Solutions

12/2019 - 09/2022 Hyderabad

Kaiser Permanente's Member Portal provides members with convenient access to healthcare services and information.

- Analyzed business requirements and contributed to the technical design, development, and testing of assigned modules.
- Designed and developed the user interface using Angular, HTML5, CSS3, TypeScript, JavaScript, and Bootstrap.
- Implemented responsive web design with Media Queries, Angular Material, and Bootstrap.
- Addressed CSS issues across devices using Media Queries.
- Ensured cross-browser compatibility by resolving bugs for Internet Explorer, Firefox, Safari, Opera, and Chrome.
- Utilized GIT for version control and JIRA for bug tracking, improving productivity and communication.
- Performed unit testing using Jasmine/Karma.

PROJECTS

Portfolio (Html5, CSS3 and JavaScript)

https://saikumar-2210.netlify.app/index.html
